THE COMMUNITIES

Livermore (population 80,725) is a growing and progressive community. Known for its world-class wineries, Livermore's agricultural and ranching traditions contribute to its community spirit and country-living ambiance. The well-planned development of business parks, high tech development, and scientific research institutions combined with affordable, quality housing, good public school system, and community college are attracting a growing number of new residents and businesses.

One of Northern California's premier residential and business communities, Pleasanton (population 67,700) is well regarded as an attractive and friendly city with a strong heritage, active and involved residents, a wide variety of services, well planned business areas, a historic downtown and well-cared for homes in family oriented neighborhoods. Schools are considered a community asset, receiving state and national recognition.

LIVERMORE-PLEASANTON FIRE DEPARTMENT

The Livermore-Pleasanton Fire Department (LPFD) believes in a commitment to caring and has a strong dedication to safety, dignity and respect for all. The Department was formed through a Joint Powers Agreement in 1996 and serves a combined residential population of approximately 148,425. There are 10 stations, 111 suppression personnel, 8 engine companies, 2 Quint/ladder units and a mix of 3 to 4 person crews. First responder paramedics are staffed on all 10 companies. Last year, the Department handled over 10,350 calls for service.

The Department provides specialty rescue and hazardous materials response units, a large fully equipped training facility, maintains a certified Rescue Systems I training site and has specialized rescue equipment. Currently, the Department is also completing the installation of new CAD, RMS and mobile data system technologies throughout its facilities.

The Department has a large, full service fire prevention bureau, including three inspectors responsible for CUPA hazardous materials enforcement. The Department's diverse public education program demonstrates its approach and commitment to fire safety using an interactive "safety-training trailer" for use at public events. Various disaster preparedness coordination and community training programs are also provided for both communities.

THE POSITION

Under supervision, a ***Firefighter*** responds to all types of fires, emergency medical, hazardous materials releases, rescue, and other calls in the protection of life and property; operates and maintains vehicles, apparatus, equipment, stations and communication systems; teaches fire safety to public; participates in physical fitness and career development programs; and performs other duties as required.

- The department employs "constant staffing".
- 24-hour shift, 56-hour workweek schedules.

NOTE:

The above information is to the best of my knowledge as of the time this went to print. **For the most up-to-date information (including dates, room numbers & registration numbers) regarding Spring 2007 scheduling, check the Chabot College web site at www.chabotcollege.org**

The Firefighter 1 Academy fills up on the first day of registration, in about an hour or so. What does this mean for you if you want to get into the academy? It means you have to have a DAY 1 PRIORITY NUMBER. The college does registration by the way of priority number. Those folks with the highest priority numbers register first. To learn more about how you can get a high priority number and increase your chances of registering into the academy, go to the main college website at www.chabotcollege.edu and go to the SPRING 2007 registration section. Once there, look for registration dates and priority numbers. Good luck!

Also, for more information about how to best increase your chances on getting into the Firefighter 1 Academy, visit my website section that is dedicated to the academy – www.chabotfire.com/Academy.htm

My suggestion to everyone is to register as soon as you are eligible to. Classes fill up very quickly, and I with more people wanting to become firefighters, I don't see our numbers of students decreasing, only increasing. Also, if you are registered in the Chabot College system, you are eligible to take classes at Las Positas College in Livermore as well. Just because one class is full (or does not fit your schedule) at Chabot doesn't mean it isn't being offered at Las Positas. When you register for classes on the Chabot College website, you can see both schedules – Chabot and Las Positas.

CANDIDATE PHYSICAL ABILITY TEST (CPAT) **INFORMATION:**

The Candidate Physical Ability Test (CPAT) is a must have for any person planning on becoming a firefighter. More and more departments are requiring a candidate to possess a CPAT completion card (no older than one year) just to apply for their department. If you do not possess a current CPAT, you do not pass go, you do not collect two hundred dollars, and you miss out on the opportunity to compete for a firefighter position at many departments.

The CPAT does not guarantee that you will be a successful firefighter. Successfully passing the CPAT means that you should be able to enter a firefighter academy at a reasonable level of fitness appropriate to the job. I encourage you to learn more about the CPAT, and also look into having this certificate on your resume. Trust me, this may be an eye-opener for some – many of you will not pass it the first time. Make sure you take advantage of the orientation and practice sessions and learn where your weak spots are so you can focus on those areas.

Basic Information For The CPAT Test

QUALIFICATIONS:

Applicants must be 18 years of age and must show government issued photo identification (i.e. drivers license, school or military ID; or a passport or visa). Candidates without a photo ID will not be allowed to take the CPAT.

APPLY EARLY

Applications are accepted in the order they are received. Applications are not accepted until the fee has been paid.

PAYMENT:

The fee to take your first test at their site is \$150.00. Your fee must be paid for your application to be accepted. This fee is non-refundable. Payment can be made with check, money order, Visa, or MasterCard. If you are paying by check, the check must clear your bank before you can take the CPAT. Make payments to “CFFJAC.” Your fee includes participation in an orientation session, related printed materials and test.

ORIENTATION SESSION:

Working with experienced CPAT proctors, you will be given the opportunity to try each of the 8 events and determine where you may need to strengthen yourself. You will be given a set of exercises to physically prepare yourself for the CPAT. If you elect not to participate in the orientation, you will be required to sign a waiver acknowledging that the orientation was offered. There are no discounts if you elect not to participate in an orientation. The CPAT dress code is enforced for all candidates who attend an orientation.

TEST:

The registration form has a place for you to choose a preferred and second orientation day as well as a preferred and second test day. You will be notified by mail of the confirmation of your orientation and test dates. A group of candidates are scheduled every half hour to report to the CPAT center. Please be on time, but not excessively early. Space for waiting is limited. If for some reason you cannot attend your scheduled test day, please notify us as soon as possible. Every effort will be made to reschedule you to a test day that will fit your schedule.

RETESTS:

If you have taken the CPAT at a CFFJAC monitored venue in the past and would like to retest, the fee is \$100.00.

PRACTICE SESSIONS:

For \$25.00, you can schedule a supervised practice on the CPAT course with a proctor. Your session is designed to meet your individual needs. A session may include: Training on the CPAT equipment, watching the instructional video, going through the course in its entirety. You also receive the benefit of mentoring: techniques, expert evaluation and conditioning advice from our CPAT proctors. Refunds for cancelled or rescheduled practice days will not be given if requested after 10:00 am the day before your scheduled practice day.

WHAT TO WEAR:

The dress code is strictly enforced for safety. The CPAT dress code for the orientation, practice sessions and test is: Long Pants (no shorts), T-shirt or sweatshirt, footwear with no open heel or toe, and no loose or restrictive jewelry. Candidates must be in proper CPAT attire before being allowed to participate in the orientation, practice sessions and test.

PARKING:

When you arrive at the CPAT center, please park to the rear of the building and enter the front door.

NO SPECTATORS PLEASE:

There is limited space at the CPAT center. In order to accommodate a fair and standard testing process for all candidates, we will not be able to allow spectators on the CPAT course or in the facility.

FIREFIGHTER EMPLOYMENT OPPORTUNITY – California Department of Forestry & Fire Protection (CDF):

The [California Department of Forestry and Fire Protection \(CDF\)](http://www.fire.ca.gov) is now accepting applications for Firefighter I. Applications will be accepted **November 1, 2006 through January 31, 2007** for the 2007 fire season, which generally starts in the end of May and generally goes through October. If you are interested in applying you must complete a [Firefighter I application \(CDF Form 215\)](#) and mail it or deliver it in person to the North Coast Region I and Cascade Region II units (see next page for locations). Applications will be accepted on a file in person basis only for the units in Southern California Region III and Central Sierra Region IV. Applications must be filed at each unit in which you wish to be considered for appointment.

To view more information about Seasonal Firefighter Hiring process and positions, go to: http://www.fire.ca.gov/php/careers_seasonal.php

There are 21 units through-out the state and they are divided between two regions, North Region, and South Region. In the Northern Region you can mail the completed application to each unit that you are interested in applying for. In the Southern Region they must be hand delivered. A list of the units can be found at the end of this announcement.

What you can expect working as a firefighter for CDF:

A firefighter 1 is a temporary position. You work a 96-hour workweek, four days on and three days off. You work the same four days in a week. Your responsibilities will include responding to vegetation fires, vehicle fires, structure fires, vehicle accidents, medical aides, public assist calls, or any other emergency. You are responsible for maintaining equipment and tools, following oral and written directions, cooking and cleaning around the station and other duties as assigned. At some stations you may get only one call per shift and others may get as many as four or five calls on a busy day.

Because CDF is a statewide fire department, you can get sent to any area within the state on a strike team assignment. You may only be gone one or two days or as many as fourteen days depending on the needs throughout the state. You may be assigned to an incident, usually a large fire, or may be assigned to cover behind other engines on an out-of-county assignment.

In addition to being assigned to working on an engine, a firefighter 1 may be assigned to work at an Air Attack Base refueling aircraft, and reloading tankers with retardant. Another opportunity that is available to firefighter I is to work as a helitack firefighter assigned to one of nine helicopters throughout the state.

There is the opportunity to work as a fire fighter assigned to a Schedule A Contract. This is where a city, county, or fire protection district makes a contract with CDF to provide fire protection for the community. For example in the Santa Clara Unit, the South County Fire Protection District has contracted with CDF to provide the personnel to operate their fire department. As a result CDF personnel operate very much like any other municipal department with firefighter, engineers, captains, and chiefs, operating type I engines, and providing advanced life support medical care.

The hiring process:

After submitting an application, it is reviewed and given a preliminary score based on your education, training and experience. The more boxes you can check the more points you can get. By mid March you should receive a letter indicating whether you passed the preliminary evaluation. If a passing score is given you may then be invited to an interview. The interview is 100 percent of your score. Because each unit must follow the same guidelines for hiring you can expect to hear the same, or close to the same questions at each interview. This can be a big help when trying to improve your interviewing skills. So the more units that you apply to the better chance you have to interview and improve.

Typically an interview panel is made up of an engineer and a captain. In some cases at the completion of your interview you are given your score, in other cases it is mailed to you. Your score is based from 0 to 100 points. Typically you need to get a score in the upper 90's to be considered for employment. By mid May you should have received a letter indicating whether or not you are being considered for employment. From here one of a number of things can happen, you could get a letter stating that you will not be considered for future employment, or you can be contacted and offered a job, or you could be contacted and offered a slot in an academy but not a job.

The presumption is that a position may open up in the future and you would already be trained to take it. Typically a new hire academy is scheduled for the first or second week in June and consists of learning basic skills needed to work as a fire fighter. The end result is that by attending the class you can obtain the CDF 67 hour Certification.

What generally happens around August or September is some firefighters quit and go back to school opening up position to hire more firefighters. So this provides some people second chance to get hired. If you stay in contact with the hiring coordinator in each unit and are willing to start later in the season you might get picked up as a late hire. After you get hired with CDF and work three months you have automatic rehire rights. Meaning you don't have to go through the same process to get hired the next season.

What CDF can offer you?

CDF is an all risk fire department. They respond to an average of 6,400 wildland fires annually and more than 275,000 non-wildfire emergencies each year. As a firefighter I you will gain experience in working on an engine as part of an engine company. You will get experience working at emergencies under stressful situation. You will learn what station life is like and how to work with people of different backgrounds in that environment.

You will have the opportunity to earn additional certifications including Incident Command Systems, Confined Space Rescue Awareness, Haz Mat Operations, Swift Water Rescue, Auto Extrication, and many other classes. You will gain experience working with the ICS system as part of an engine company at small and large incidents.

Just like anything else you can get out of CDF what you put in. Because of the number of people retiring you have a very good opportunity to gain a permanent position if you put the effort into it. It is now up to you to make the first step.

The California Training Officers Symposium is a joint venture hosted by the Southern California and [Northern California Training Officers Associations](#). I am currently serving on the Executive Board as the First Vice President. Membership is only \$40.00 per year and members receive discounts on training sessions such as this one, as well as the ability to be on our email mailing list and receive numerous training opportunities on a weekly basis, and have the ability to network with training officers and others with an interest in fire service training. We are a subsection of the [California Fire Chiefs Association](#).

FIREFIGHTER EMPLOYMENT OPPORTUNITY – Seattle Fire Department:

The following information was taken from the Seattle Fire Department website – www.seattle.gov/fire/

| |
|--|
| <p>Application period: OPEN October 6 - December 29, 2006</p> |
|--|

During the open application period only, Entry-Level Firefighter Applications can be obtained by the following means:

- Apply Online at [Fire & Police Exams](#) **OR**
- Send a *self-addressed stamped envelope* to:

Seattle Personnel Dept - Fire Exams
PO Box 34028
Seattle, WA 98124-4028

Each individual must meet the [Minimum Qualifications](#) and submit a completed application for testing during the open application period. There is a **\$25.00 application fee** for processing.

Testing for Firefighters is conducted by the City of Seattle Personnel Department Fire Exams Unit.

The testing consists of the following:

- a formal [Written Examination](#)
- 2 [Oral Board Interview Exams](#)

Applicants will be notified by mail of the scheduled testing dates, time and location by the Fire Exams Unit.

See Also: [Firefighter Career Overview](#)
[Testing Process](#)
[Firefighter Candidate Information](#) (for exam schedule)

The most competitive individuals successfully completing the exams will be eligible for consideration for Firefighter positions.

Applicant Questions??

It is strongly advised that applicants with questions about becoming a Seattle Firefighter seek information from the appropriate experts so that they obtain accurate and complete information. Applicants often have friends and other "contacts" in the City of Seattle, however, these individuals may not have the most up-to-date information and may not be able to provide essential information.

Questions about the application process, exams, test dates, or other related information should be directed to the **Fire Exams Unit at (206) 386-1303.**

Questions regarding the employment process, qualifications, or other related information, please [Email](#) or call the **Recruitment Officer of the Seattle Fire Department at (206) 386-1472.**

Questions regarding EMT Certification or reciprocity call [King County Medic One](#) at **206-296-4860.**

The Fine Print:

- If you would like to be added to our mailing list (no, I won't give your email address out to others), email me at sprziborowski@chabotcollege.edu and I will add you to the list. Benefits of being on the mailing list include being notified when the latest Fire & EMS news is published, and being notified of firefighter testing opportunities, volunteer opportunities, or training opportunities.
- If you know of someone who wants to receive this newsletter (as well as other updates) email me at sprziborowski@chabotcollege.edu and I will place them on the mailing list.
- If you want to take your name off of the mailing list, just send me an email at sprziborowski@chabotcollege.edu and in the subject heading, and type in "unsubscribe from mailing list" and I will remove your name.
- If you are subscribed to my email mailing list and you are not receiving anything (a problem some earthlink, aol, hotmail and yahoo users have at times), make sure you add my name – Steve Prziborowski and the email address I use to send this newsletter and other fire and EMS related news items out – sprziborowski@aol.com to your address book, safe list, white list, etc. Since I mass mail items to thousands of people, some email providers may think these items are spam or junk mail, even though they are not. If you have not received anything from me in over two weeks, email me to let me know so that I can attempt to troubleshoot the issue.
